

# EMPLOYEE STOCK-OPTION PLAN- 2016

## PART A: STATEMENT OF RISKS

*An investment in Equity Shares involves a high degree of risk. You should carefully consider all the information in this Plan, including the risks and uncertainties described below, before making an investment in the Equity Shares. If our business, profitability and financial condition gets affected, the price of our Equity Shares could decline, and you may lose all or part of your investment in the Equity Shares. Unless specified or quantified in the Plan, we are not in a position to quantify the financial or other implication of any of the risks. ESOPs are subject to the following additional risks:*

- 1. Concentration:** The risk arising out of any fall in value of shares is aggravated if the Employee's holding is concentrated in the shares of a single Company.
- 2. Leverage:** Any change in the value of the share can lead to a significantly larger change in the value of the option as an option amounts to a leveraged position in the share.
- 3. Illiquidity:** The options cannot be transferred to anybody, and therefore Employees cannot mitigate their risks by selling the whole or part of their options before they are exercised.
- 4. Vesting:** The options will lapse if the employment is terminated prior to vesting. Even after the options are vested, the unexercised options may be forfeited if the Employee is terminated for gross misconduct.
- 5. Market Risk:** The Employee can experience losses due to factors that affect the overall performance of the financial markets, such as temporary exchange closures, broker defaults, settlement delays and strikes by brokers, political turmoil, recessions, changes in interest rates and terrorist attacks.

The Management of the Company has a perception that the following risks or uncertainties may occur during the course of business such as:

#### **i. Our Company is in business of Express Distribution and any inaccuracy in forecasting future capital can affect liquidity and access to capital.**

Our Company is in business of distribution and any inaccuracy in forecasting future capital (own trucks and hub centers) requirement(s) can affect liquidity and access to capital. Inability to forecast growing

demands of the sector and to align available resources accordingly leading to unavailability of required number of resources (trucks / drivers / BAs, etc.)

**ii. Over dependency on Outsourced Vendors for Key business activities**

We are reliant on outsourced manpower for key business activities such as loading/unloading of goods. Over dependence on outsourced vendors may also lead to non-standardization in service delivery, which may lead to different service outcomes to clients hence impacting the Company's ability to control service delivery and customer experience.

We highly rely on third party vendors for logistic services with concern over their ability to fulfil TCIEL requirement and vendor's financial strength to support their business growth in conjunction with TCIEL growth plan.

**iii. Fall in demand due to slow down in other industries or economy as a Whole/Competition**

We are exposed to face fall in demand due to slow down in other industries or economy as a whole/competition. Slowdown in the economy may adversely impact the overall growth of T&L industry. Inability to operate differently and more efficiently at larger volumes may result in diseconomies of scale that threaten margins.

**iv. Political Turmoil**

Political Turmoil is an inherent risk faced by all the operating business. Any significant change in Government policies that adversely affect the business and economic conditions in India could also adversely affect the business, future financial performance and the price of the Company's Equity Shares.

The above risks and uncertainties include but are not limited to risk and uncertainties regarding dependencies on the few customers and suppliers, changes in the regulatory framework, adverse development in the any of the customer industries to whom substantial part of the product is given, downgrading of our credit worthiness, political instability, legal restrictions and general economic conditions affecting our industry.
