been centering around the capital, the status isn't much better in other cities.

Predictably, Delhi tops the list of the most polluted city but, it is followed closely by Ghaziabad, Allahabad, and Bareilly in Uttar Pradesh; Faridabad in Haryana; Jharia in Jharkhand, Alwar in Rajasthan; Ranchi, Kusunda and Bastacola in Jharkhand; Kanpur in Uttar Pradesh, and Patna in Bihar; with PM10 levels ranging from 200 µg/m3 to 258 µg/m3.

"The most polluted cities are spread across North India, starting from Rajasthan and then moving along the Indo-gangetic belt to West Bengal.
